The provisions and information set forth in this brochure are intended for informational purposes only, and are subject to modification without notice. For additional information, see the college catalog, schedule of courses offered, and/or the Midland College website.
The Applied Technology Division at Midland College offers training in many exciting fields. You may choose anything from a one year Certificate to a two year Associate of Applied Science degree, or you may simply choose to take classes for the enjoyment of learning a new skill. The Air Conditioning, Aviation Maintenance, Business Systems, Computer Graphics, Information Technology and Welding Technology programs offer training through Continuing Education so you don’t even have to worry about a grade. Classes are offered at many different times and places. If your company needs to train a large number of people, training can even be arranged at your place of business. Need to offer a training program on something special, but you don’t have the facilities? Come check out our Advanced Technology Center located at 3200 W. Cuthbert. The ATC was designed as a training facility for special classes not on our regular schedule. If you have a special need, come see us and let us design a course of study just for your organization.

One of the Technical Programs at Midland College could open doors to an exciting future and a challenging career. Feel free to contact the instructors from any of the listed programs for additional information, or go to our website at www.midland.edu. Midland College admits high school graduates, G.E.D. graduates, transfers from other colleges, and other approved individuals. You may even qualify for financial aid! Call (432) 685-5511 for financial aid information and (432) 685-4513 for registration information. For information on Applied Technology programs, you may call the instructors listed with their programs or the Dean of Applied Technology, Curt Pervier at (432) 685-4676. For customized training information call Lyndolyn Pervier at (432) 681-6329. Midland College is responsive to your training needs. Call us and let’s talk!
