Outcomes - The ABCDE Method

☐ **A = Audience** (Who are you assessing?)
☐ **B = Behavior** (What is expected of the audience?)
☐ **C = Conditions** (What intervention is required?)
☐ **D = Degree** (To what degree is the behavior to be reached?)
☐ **E = Evaluation** (What tool will be used to measure this?)

**Recipe for Writing an Outcome Statement** = C + A,B + D,E
