Midland College
Syllabus
Spring 2008
EMSP 1262
Paramedic Clinical II
(0-0-6)

Course Description: A method of instruction providing detailed education, training and work-based experience and direct patient/client care, generally at a clinical site. Specific detailed learning objectives are developed for each course by the faculty. On-site clinical instruction, supervision, evaluation, and placement is the responsibility of the college faculty. Clinical experiences are unpaid external learning experiences. Course may be repeated if topics and learning outcomes vary.
Coresquisite: EMSP 1356, EMSP 1438, EMSP 1355

Text, References, and Supplies: Required text: Access to online materials on Midland College’s Blackboard Website

Course Goals/Objectives: Upon successful completion of the course, the student should be able to:

1. apply the theory, concepts and skills involving specialized materials, equipment, procedures, regulations, laws and interactions within and among political, economic, environmental, social, and legal systems associated with Emergency Medical Services.
2. demonstrate legal and ethical behavior, safety practices, interpersonal and teamwork skills, communicating in the language of the Paramedic.
3. recognize, assess, and manage medical emergencies under the direction of a physician.
4. provide pre-hospital emergency care to acutely ill patients by ambulance service and secondarily in other appropriate settings (such as hospitals).

Student Contributions and Class Policies:

Students will be expected to attend all scheduled clinical rotations. Rotations will start promptly at the designated time. Any student arriving late will be counted tardy. Three tardies will result in 1 absence. **Students will be allowed 3 absences during a semester. If the student does exceed 3 absences they may be dropped from the program.**

Rotations will have assigned times. Any student arriving late will be counted tardy and sent home. Students will be required to make up all missed assigned clinicals. A student may also be sent home for any infraction stated in the Paramedic Clinical Handbook.
Student must complete the required number of clinicals specified by the instructor in an allotted time, i.e., two (2) ER and two (2) ambulance rotations in a calendar month. If the requirement is not met the student will have a zero averaged in with the grade that is made on the next clinical or rotation.

Evaluation of Students:

Individual clinical rotations will be assigned grades and then averaged to determine the final grade. Students will complete 40 hours of hospital clinical (ER), 40 hours of Ambulance time with at least 5 ALS runs and an eight (8) hour extrication exercise.

Students must receive a final grade of 75% or better to receive a course completion and be eligible to sit for the credentialing exam.

Grades will be assigned as follows:
A=100-90%
B=89-80%
C=79-70%
D=69-60%
F=59 and below

Course Schedule: To Be Announced

Scans Information

Foundation
Basic Skills Reading, writing, arithmetic/mathematics, listening and speaking.
Thinking skills: Creative thinking, decision making, problem solving, abstract thinking, reasoning.
Personal Qualities: Responsibility, self-esteem, sociability, self-management, integrity, honesty.

Workplace Competencies
Interpersonal: Participates as a member of a team, teaches others new skills, serves clients/customers, exercises leadership, negotiates, works with diversity.
