Course Description

This course is a detailed study of the knowledge and skills in the assessment and management of patients with medical emergencies, including medical overview, neurology, gastroenterology, immunology, pulmonary, urology, hematology, endocrinology, toxicology and other related topics.

Text, References, and Supplies

- Uniform t-shirt, pants, footwear
- Stethoscope

Student Learning Outcomes

Upon successful completion of the course, students will:

1. Integrate pathophysiological principles and assessment findings to formulate a field impression.
2. Implement a treatment plan for the medical patient.

Student Contributions, Responsibilities and Class Policies

Students will be expected to attend all classes. Class will start promptly at the designated time. Any student arriving late will be counted tardy. **Three tardies will result in 1 absence. Students will be allowed 5 absences during a semester. If they exceed 5 they will be dropped from the program.**

All exams and assignments MUST be done and turned in BY the given due date and time to get credit. If you are absent that day, you will have until the next class period to get it turned in. Any variance in this will be done ONLY at the Instructor’s discretion. Student is required to wear the Midland College T-Shirt with uniform during class, clinical/practicum and all Midland College activities.

Evaluation of Students

Students will be evaluated using unit examinations that could consist of true/false, multiple choice, short answer and essay type questions. The unit examinations will consist of 50% of the students final grade assignments and quizzes will be 20%. The remaining 30% will come from a comprehensive final examination. **Students must receive an 80% on the final exam AND a final grade of 75% or better in the course to receive credit for credentialing purposes.**

Grades will be assigned as follows:

\[ A = 100 – 90\% \]
B = 89 – 80%
C = 79 – 70%
D = 69 – 60%
F = 59 and below

Course Schedule

Some course assignments will be done on the computer. Students will be required to meet in the classroom to take exams, skills evaluations, and review. A detailed calendar of topics, assignments and test dates will be provided in class.

Americans with Disabilities Act (ADA)

Any student who, because of a disabling condition, may require some special arrangements in order to meet course requirements should contact Shep Grinnan as soon as possible. Mr. Grinnan’s office is located in the Scharbauer Student Center Building. These conditions may include documented physical or educational disabilities. Please be aware that services or accommodations are not automatic. Each student must request them and secure the proper authorizations/documentation.
