Midland College
Syllabus
FIRT 2380
Cooperative Education – Fire Prevention
and Safety Technology/Technician (1-20-0)

Course Description
Career related activities encountered in the student’s area of specialization are offered through a cooperative agreement between the college, employer and student. Under supervision of the college and the employer, the student combines classroom learning with work experience. Directly related to a technical discipline, specific learning objectives guide the student through the paid work experience. This course may be repeated if topics and learning outcomes vary.

Text, References and Supplies
Text and reference material will not be required. Writing material and access to a computer will be helpful.

Course Goals/Objectives
Upon completion of this course the student will know or be able to do the following:

1. have a firsthand knowledge of the problems associated with running a large department, agency, and or company.
2. know how budgets are developed.
3. how employee problems are handled.
4. training is made.
5. interpersonal relationships and the politics of the work area

Student Contributions and Class Policies
The student will be required to meet 1 hour each week with the faculty advisor and attend 16 one-hour seminars through the semester. A total of 320 hours must be met for work in the area of his/her employment. The student is required to attend these meetings and classes. At the end of the course he student will write a 3 to 5 page paper on the experience of the program. This will be done on a word processor.

Evaluation of Students
Based on attendance and participation and one written paper at end of course.

90 and above A
80 – 89 B
70 – 79 C
60 - 69 D
