Course Goals
Upon successful completion of the course, the student will accomplish the following:

1. The student will continue to develop an oil and gas related legal vocabulary.

2. The student will identify, define and explain the different types agreements utilized in the oil and gas industry including but not limited to exploration agreements, area of mutual interest agreements, farm out agreements, joint operating agreements and oil and gas leases.

3. The student will learn to draft all of the above documents in accurate and precise format.

4. The student will be given hypothetical fact situations utilizing oil and gas documents and learn to identify the problems in these situations.

Student Contributions and Class Policies
Students will be expected to exhibit professional behavior during class and are expected to attend class. If it becomes necessary for a student to miss a scheduled class time, it will be the student’s responsibility to contact the instructor during scheduled office hours in order to receive missed assignments. If a student is absent on a scheduled exam day, he/she may take a make up exam (which may be a different exam than that given at the scheduled exam time) within one week from the scheduled date of the
exam. After one week has expired, no make-up exams will be accepted.

**Evaluation of Students**

There will be three tests or projects worth 20% each. The final exam will count as 30% of the student’s grade. Attendance and class participation will count for 10% of the final grade.
