SUBJECT: General Travel

The following policy applies to travel of all employees of Midland College as well as to individuals other than employees who are authorized to travel at College expense. Authorization for travel will not be granted and expenses will not be paid unless the travel is made and reimbursement claimed in accordance with this policy.

I All travel must be authorized in advance by the President or his designee. Travel expense reimbursements will be limited to available budgeted funds.

II Faculty members will be given time off without salary deductions for approved professional travel. Each division is allocated travel funds based on the number of full-time instructors. A committee composed of three faculty members, appointed annually by the division dean, will review faculty travel requests and submit recommendations to the dean. The division dean will review the committee’s recommendations and will approve, disapprove, or modify requests. The College will provide a substitute instructor for approved professional travel when necessary.

III Travel not related to an employee’s teaching field or area of responsibility is generally not authorized. The President may authorize travel for any person when in the best interest of the College.

IV Nonexempt employees may be permitted to attend out of town trips for work related purposes. The employee will receive either overtime pay or compensatory time for travel and/or meeting attendance outside of normal work hours if the training is directly related to the employee’s current position or if the employee performs productive work.

V. Trips involving students will be governed by the following regulations:

A. Only College employees over twenty-one years of age who have submitted their driver’s license and personal information to Human Resources for approval may drive College vehicles. Drivers of vehicles over fifteen passengers must have a commercial license and pass drug testing.

B. Under special circumstances, where students are not being transported, student drivers under twenty-one, who have submitted their driver’s license and personal information to Human Resources for approval may drive College vehicles.
C. Student drivers over twenty-one who have submitted their driver’s license and personal information to Human Resources for approval may transport students as long as they are accompanied by an adult college employee sponsor.

D. Unless specifically approved in advance by the Vice President of Student Services or designee, all students will travel to and from each activity with the group.

E. College cars, vans or buses, leased buses, and/or air travel may be used.

F. Seat belt requirements are determined by state law, but all students should be encouraged to wear seat belts when available when traveling in college vehicles.

G. College vehicles should transport no more than the “maximum safe number” of passengers for that vehicle.

H. Van drivers should not drive more than ten hours in any twenty-four hour period.

I. All drivers are prohibited from “texting” or e-mailing while driving a college owned vehicle or a personal vehicle while on college business.

Only actual vehicle expense is to be charged on these credit cards, and all charge tickets must be returned with the credit card.

D. Personal Auto Allowance: Use of personal autos will be reimbursed at the rate determined by the Texas Comptroller of Public Accounts. Mileage will be determined from the official map of the Texas Highway Department and computed for the shortest reasonable distance between city limits. Mileage paid will not exceed the cost of plane fare for all employees traveling to the same destination. Expenses for vehicles which are furnished to staff members by the College or other organizations will be at the state of Texas rate as reflected at http://www.window.state.tx.us/comptrol/texastra.html.
