Notice: Students MUST actively participate by completing an academic assignment required by the instructor by the official census date. Students who do not actively participate in an academically-related activity will be reported as never attending and dropped from the course.

Course Description:
This course is designed to enable students to learn the introductory techniques of collection, analysis, presentation, and interpretation of data and probability. Analysis includes descriptive statistics, correlation and regression, confidence intervals and hypothesis testing. Prerequisite: TSI complete Math.

A final project applying the techniques and analysis described in the above course description is required.

Core Objectives:
This course fulfills the three-hour Mathematics requirement in the Midland College Core Curriculum. The Core Curriculum is a set of courses that provide students with a foundation of knowledge, skills and educational experiences that are essential for all learning. The Core Curriculum is available in the Midland College Catalog. As part of the core, this course addresses the following three objectives:

Critical Thinking Skills – Students will demonstrate critical thinking skills by analyzing and interpreting numerical data including descriptive statistics, correlation and regression, confidence intervals and hypothesis testing in course assignments, instructor created proctored exams, and a departmental final exam.

Communication Skills – Students will demonstrate communication skills in written, oral, and visual form within the classroom setting through instructor posed questions, collaborative peer assignments, and exams.

Empirical and Quantitative Skills – Students will demonstrate empirical and quantitative skills by analyzing real-world applications of introductory techniques of collection, presentation, analysis, and interpretation of
numerical data and probability through course assignments, instructor created proctored exams, and a departmental final exam.

**Text, References and Supplies:**
  - ISBN: 978-0-13-413678-3 (Midland College custom print)
- MyStatLab code may be required by some instructors.
- Graphing calculator is required (TI-83, TI-84 or TI-Nspire are recommended)
- Access to a computer with Microsoft Excel is required.

The student is responsible for any additional proctoring fees that may be required.

**Student Learning Outcomes**
Upon successful completion of this course, students will:
1. Explain the use of data collection and statistics as tools to reach reasonable conclusions.
2. Recognize, examine and interpret the basic principles of describing and presenting data.
3. Compute and interpret empirical and theoretical probabilities using the rules of probabilities and combinatorics.
4. Explain the role of probability in statistics.
5. Examine, analyze and compare various sampling distributions for both discrete and continuous random variables.
6. Describe and compute confidence intervals.
7. Solve linear regression and correlation problems.
8. Perform hypothesis testing using statistical methods.

**Student Contributions, Responsibilities and Class Policies:**
Students will be expected to comply with the policies outlined in the Midland College Catalog. Instructor policies concerning attendance and academic behavior are consistent with the policies in the catalog. Regular attendance is required to do well in this class.

Students will be evaluated based on the results of module assignments, online quizzes, a proctored Midterm Exam, and a proctored Final Exam given during the semester. Students are expected to complete each assignment.

**Attendance Policy:**
This course is conducted primarily online with the exception of a proctored Midterm and Final Exam taken at a college or university testing center, or other approved location by the instructor. Students are expected to fully participate in the course by logging into Canvas at least twice per week. This is NOT a self-paced course. Refer to the Midland College Catalog for more information at.

**Withdrawal Policy:**
Students who have enrolled in a Texas public institution of higher education as a first-time freshman in fall 2007 or later are permitted to drop no more than six courses during the entire undergraduate career. This limit includes all transfer
work taken at a Texas institution of higher education and to second baccalaureate degrees. This statute was enacted by the State of Texas in spring 2007 (Texas Education Code 51.907). Any course that a student drops after Census Day is counted toward the six-course limit if “(1) the student was able to drop the course without receiving a grade or incurring an academic penalty; (2) the student’s transcript indicates or will indicate that the student was enrolled in the course; and (3) the student is not dropping the course in order to withdraw from the institution.” Please visit the Midland College Catalog

Scholastic Dishonesty:
Midland College does not tolerate scholastic dishonesty or academic misconduct in any form. Please read the Student Rights & Responsibilities section in the Midland College Catalog for more information.

Evaluation of Students:
Students will be evaluated based on grades which may include the following but are not limited to:

<table>
<thead>
<tr>
<th>Assessments</th>
<th>Percentage of Grade</th>
<th>Grade Range</th>
</tr>
</thead>
<tbody>
<tr>
<td>Proctored Exams</td>
<td>70-80%</td>
<td>90-100 A</td>
</tr>
<tr>
<td>Quizzes/Assignments</td>
<td>0-10%</td>
<td>89-80 B</td>
</tr>
<tr>
<td>Final Project/Final Exam</td>
<td>20-30%</td>
<td>79-70 C</td>
</tr>
<tr>
<td></td>
<td></td>
<td>69-60 D</td>
</tr>
<tr>
<td></td>
<td></td>
<td>59-0 F</td>
</tr>
</tbody>
</table>

Course Schedule:
This class meets for an equivalent of 3 contact hours per week. Students are not required to attend campus except to take a proctored Midterm and Final Exam at a college or university testing center, or other approved location by the instructor. For a tentative schedule of the class material to be covered, please refer to the schedule provided in the Syllabus tab in Canvas.

Course Outline:
Chapter 1: Data Collection
  1.1 Introduction to the Practice of Statistics
  1.2 Observational Studies versus Designed Experiments
  1.3 Simple Random Sampling
  1.4 Other Effective Sampling Methods
  1.5 Bias in Sampling
  1.6 The Design of Experiments

Chapter 2: Organizing and Summarizing Data
  2.1 Organizing Qualitative Data
  2.2 Organizing Quantitative Data: The Popular Displays
  2.3 Additional Displays of Quantitative Data
  2.4 Graphical Misrepresentations of Data
Chapter 3: Numerically Summarizing Data
3.1 Measures of Central Tendency
3.2 Measures of Dispersion
3.4 Measures of Position and Outliers
3.5 The Five-Number Summary and Boxplots

Chapter 4: Describing the Relation Between Two Variables
4.1 Scatter Diagrams and Correlation
4.2 Least-Squares Regression
4.3 Diagnostics on the Least-Squares Regression Line

Chapter 5: Probability
5.1 Probability Rules
5.2 The Addition Rule and Complements
5.3 Independence and the Multiplication Rule
5.4 Conditional Probability and the General Multiplication Rule
5.5 Counting Techniques

Chapter 6: Discrete Probability Distributions
6.1 Discrete Random Variables
6.2 The Binomial Probability Distribution

Chapter 7: The Normal Probability Distribution
7.1 Properties of the Normal Distribution
7.2 Applications of the Normal Distribution
7.3 Assessing Normality

Chapter 8: Sampling Distributions
8.1 Distribution of the Sample Mean
8.2 Distribution of the Sample Proportion

Chapter 9: Estimating the Value of a Parameter
9.1 Estimating a Population Proportion
9.2 Estimating a Population Mean

Chapter 10: Hypothesis Tests Regarding a Parameter
10.1 The Language of Hypothesis Testing
10.2 Hypothesis Tests for a Population Proportion
10.3 Hypothesis Tests for a Population Mean

Chapter 11: Inferences on Two Samples
11.1 Inference about Two Population Proportions
11.2 Inference about Two Population Means: Dependent Samples
11.3 Inference about Two Means: Independent Samples

ADA Statement:
Midland College provides services for students with disabilities through Student Services. In order to receive accommodations, students must place documentation
on file with the Counselor/Disability Specialist. Students with disabilities should notify Midland College prior to the beginning of each semester.

Student Services will provide each student with a letter outlining any reasonable accommodations. The student must present the letter to the instructor at the beginning of the semester. More information can be found at the Student Services – Disability Services or by contacting the Midland College Disability Specialist at 685-4505.

Midland College does not discriminate on the basis of race, color, national origin, sex, disability or age in its programs and activities. The following individuals have been designated to handle inquiries regarding the non-discrimination policies: Tana Baker, Title IX Coordinator/Compliance Officer, 3600 N. Garfield, SSC 242, Midland, TX 79705, (432) 685-4781, tbaker@midland.edu; Natasha Morgan, Director Human Resources/Payroll, 3600 N. Garfield, PAD 104, Midland, TX 79705, (432) 685-4534, nmorgan@midland.edu. For further information on notice of non-discrimination, visit http://wdcrobcolp01.ed.gov/CFAPPS/OCR/contactus.cfm or call 1 (800) 421-3481.

Spanish

Midland College no discrimina por motivos de raza, color, nacionalidad, sexo, discapacidad, o edad en sus programas o actividades. Las siguientes personas han sido designadas para responder a cualquier pregunta o duda sobre estas políticas no discriminatorias: Tana Baker, Title IX Coordinator/Compliance Officer, 3600 N. Garfield, SSC 242, Midland, TX 79705, (432) 685-4781, tbaker@midland.edu; Natasha Morgan, Director Human Resources/Payroll, 3600 N. Garfield, PAD 104, Midland, TX 79705, (432) 685-4534, nmorgan@midland.edu. Para más información sobre estas políticas no discriminatorias, visite http://wdcrobcolp01.ed.gov/CFAPPS/OCR/contactus.cfm o llame al 1 (800) 421-3481.

Math/Science Division Information:
Division Dean: Dr. Margaret Wade 125 AHSF (432) 685-4615
Department Chair: Dr. Sonia Ford 110 AHSF (432) 685-4525
Division Secretary: Mrs. Carol Pritchard 124 AHSF (432) 685-6404
Division Clerk: Ms. Sarah Anderson 124 AHSF (432) 685-6896
